

## The origin of CROPS

“To harvest crops” --Thinking of crops in the context of agriculture.

Seeds are sown. They take root and grow. With great care and labor the farmers harvest the crops.

We assemble new and unique ideas.

We select those that merit our attention and design consideration.

We Innovate, simplify, and craft products that carry our name.

CROPS was founded in 1996 based on this conceptual metaphor.

### CROPS—Our Ideas

Our crops, in other words our products, are well-developed,

This is due to the efforts of our outstanding designers, technicians and manufacturers.

We want to provide products that amaze and delight the user.

### CROPS—Our design

The appearance isn't anything outrageous.

The essence = simplicity

We strive to apply our design philosophy across our product line. Easy to use designs that exhibit simple, functional beauty.

### CROPS—Our craftsmanship

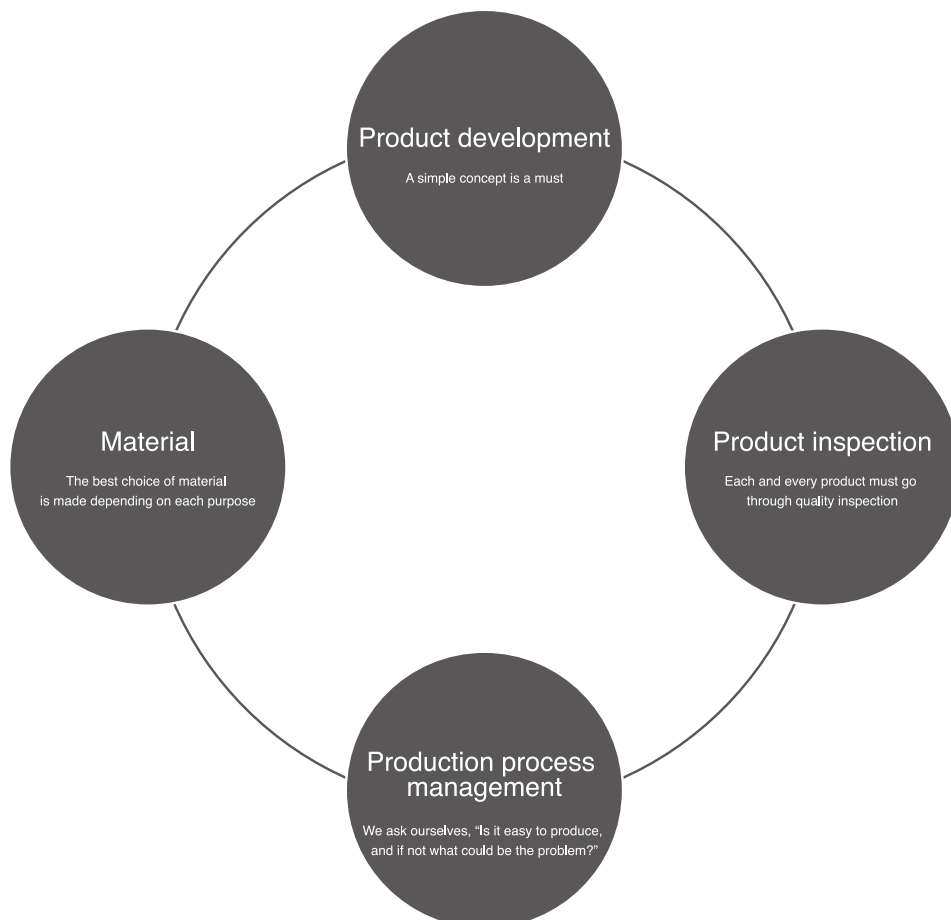

Our team works in close collaboration with local technicians and manufacturers.

Through mutual trust we are able to pursue product designs and follow processes that will yield a quality CROPS product.

Attention to the smallest details and continuous improvement of the design is part of our process.

We'll produce prototypes based on our initial designs. We'll field test them to evaluate form, fit, and function.

We'll refine the design using real world feed-back. Through these iterations, we can fully develop and proudly deliver CROPS products.

# Product concept

The CROPS flagship model beats others in attractiveness.  
When we make our locks, we begin with designing cylinders.  
The rigidness is present, and yet a shaped head is made possible.  
Not only does it protect your bicycle from theft, it's easy to use and  
also feels comfortable when you push the key into the lock.  
Each time you use the key, you feel a sense of satisfaction.  
This is what CROPS Pro Series is all about.

With our main products being locks and lights,  
we offer general bicycle accessories.  
We have products of varied specifications and colors to meet your needs  
in all cycling environments from road racing to urban cycling.  
Our product lineup will satisfy cyclists of any kind,  
whether he/she is a road racer or an urban cyclist.

CROPS PRO / ADVANCE

## Vibration sensor alarm **LION ALARM**

	Product code	Color	Type	Weight (g)
Single	CP-Z110-AL	Black	ALARM	130

Parts : USB (Type-C) cable

- Switch for
- On / Off
  - Volume control
  - Battery status check

# LION ALARM, linkstation combo

It can be used on bicycle frames that are equipped with bottle cage mounts.  
 The LION ALARM can be mounted directly to the bicycle,  
 and when vibration is detected, the alarm sounds.

Constant : Approx 160hrs. (In ON mode)

Constant alert : Approx 22hrs.  
 (Repeat alert for every 10sec.)

Full charge : Approx 2hrs.

Product code	Color	Type	Weight (g)
Combo CP-Z110-LNK-AL	Black	ALARM	130 250

Parts : Dimple keys x 3 / USB (Type-C) cable / Spacer / Screw

## K4 ATTACHMENT PARTS K4 Connector link

Product code	Color	Type	Weight (g)

# FOLDABLE U-LOCK benlock™

**“BENLOCK” is sturdy and portable  
the latest foldable U-lock.**

**THE BRACKET DESIGNED WITH  
SMART TAG STORAGE SPACE**

In addition, the smart tag can be hidden in a special case to provide the most advanced security measures. The BENLOCK™ bracket can be mount to the bicycle body, concealing the smart tag in a hidden location.

-Break through the common sense of bicycle locks-  
“BENLOCK™” which is sturdy and portable! the latest foldable U-lock.  
The key to choosing a lock is the balance of weight, ease of handling, and security performance. The stronger the lock, the better the security performance, but the lock is proportionally heavier and harder to handle. As a result of pursuing both strength and ease of handling, it became a very well- balanced lock, which is the “BENLOCK™” . There have been many cases of people finding and returning stolen cars because they had GPS tracking system installed. The BENLOCK™ can equipped with a smart tag into the bracket which is the most advanced anti-theft measures to protect your valuable bicycles.

**GOOD DESIGN  
AWARD 2023**

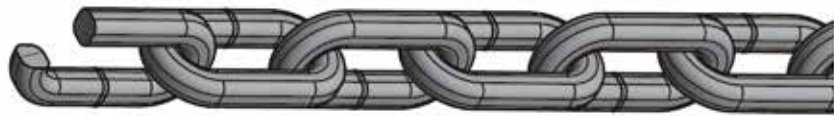

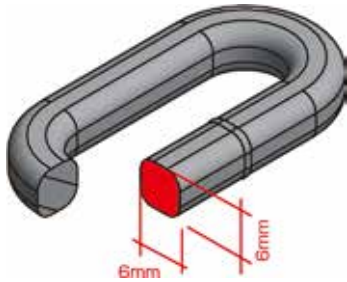

## BENLOCK BRACKET COMBO

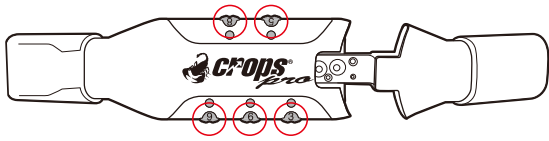

Product code	Color	Size (WxDxL mm)	Size (pipe diameter mm)	Type	Weight (g)
BEN-FD15B-01	Black	127x24.5x197	φ25~38	U-LOCK	537

Parts : Bracket “ZP-BKT007” / Strap x 2 / Phillips head screws x 2

### The angled chain

Characteristics and strength  
Strong steel chain specially heat-treated for reinforcement.

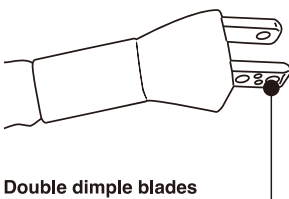

### A 5-digit combination lock ( Head type : K5 )

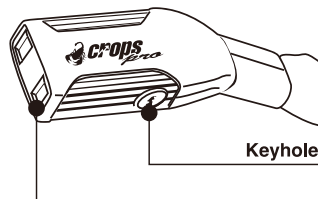

The CROPS original double-locking system which uses two balls locking into two blades defies the traditional locking systems. The unique 5-digit combination lock is equally spaced and lined up flat for precise setting. You won't get annoyed by accidentally turning other dials while using, unlike what happens with the ordinary 5-digit combination locks.

### The Dimple key ( Head type : K4 )

The supplied dimple key is slightly bigger than a regular key so it fits comfortably in your hand.

**Double dimple blades**  
Anti-twist double blades  
Designed for very smooth insertion.

**Connecting part for K4 series**  
Enables connection to optional K4 series.

## Why do double wired cable provide excellent security?

When attempting to cut the double wired cable with tools such as pliers, wire ② cannot reach the blade near the pivot where the cutting force is greatest, and this wire ② gets in the way, thus making it difficult for wire ① to be cut.

※Proven to show the above result when using small tools such as pliers or nippers. The same results may not be anticipated when using bolt clippers or wire cutters.

Cross-section of the double wired cable

## K5-BIRO 150

**K5  
BIRO**

Product code	Color	Cable size (φ x L mm)	Cable type	Weight (g)

**Dimple key**

K4 series

**Dimple key type**

Alarm "LION ALARM" with built-in vibration sensor can be connected. The head shape like an outlet plug boasts high security by having an independent locking mechanism for each of the two blades.

**Combination lock**

**Combination lock**

Design that balances function and design in a flat, easy-to-turn arrangement

**Zero stop counter**

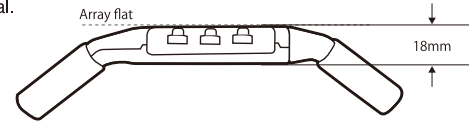

Turn the dial clockwise to stop at "0". Because it can be set to "0" quickly, it is easy to count to the number when unlocking.

K5 series

**5-digit combination lock**

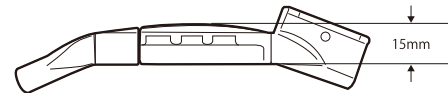

You can set 100,000 Pins, and by arranging the five-digit combination flat, it is easy to visually remember the PIN and easy to operate when turning the dial.

K3

**3-digit combination lock**

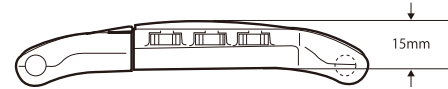

It is a lightweight and practical head specification in a sharp form pursuing a comfortable usability.

K2 series

**3-digit combination lock**

"K2" 3 digits combination cylinder with smooth and stress-free to lock and unlock.

Q5 series / Q10

**3-digit combination lock**

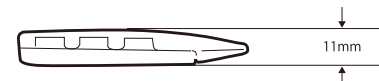

PRO spec head that further enhances the "Q series" head. This sizing fits most hands and is suitable for various scenes required for urban riding.

Q series

**3-digit combination lock**

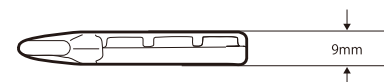

Head that can be said to be a representative work of CROPS developed for road bike users. It has been embraced by users for its functionality and variations.

SPIDER

**3-digit combination lock**

The flat construction of the head and the wide-opening shackle allows versatile use.

**CABLE LENGTH COMPARISON**

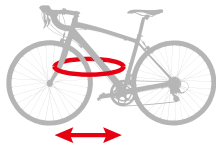

[Lock front wheel and down tube]  
Cable length comparison

**Cable : L 300 mm**

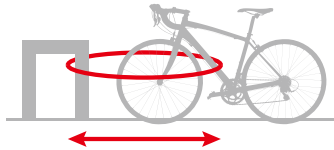

[Lock the front wheel and down tube]

**Cable : L 1100 mm**

[Locked on fences such as bicycles and bicycle parking lots]

**Cable : L 1800 mm**

**BLADE**

6mm thick quenching blades are connected with special rivets, resistant to cutting and bending, and have strength for long-term bicycle parking.

**CHAIN**

Uses a high-strength hardened steel chain. 3mm, 4mm, 6mm, 8mm series development.

**BIG BIRO CABLE**

Specs that further reinforce the BIRO cable and have a good balance between strength and portability. Used in bracket-fixed K3-BIRO, K4-BIRO, etc.

**BIRO CABLE**

BIRO cable (shape memory cable) made by CROPS original manufacturing method is harder to stretch than a normal coil cable, and it has double wire strength.

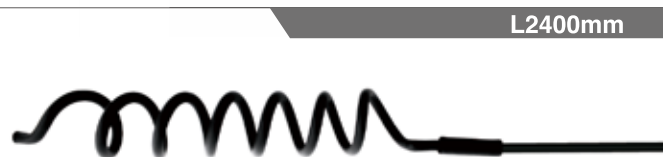

**COILED CABLE**

It does not need to be bundled when stored, and is widely used for fixed bracket locks and compact locks.

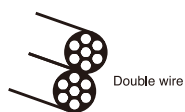

**EASY WRAP CABLE**

A coil and straight hybrid cable. It can be stored compactly using the coil part.

**DOUBLE WIRE CABLE**

The cable bundled with two wires has high resistance to cutting, and can be stored smoothly because it is hard to twist.

**STRAIGHT CABLE**

Effective for locking front and rear wheels and locking multiple bikes without entanglement with spokes.

\* The above length is the total length including the head.

# VISO BELL COMBO

CROPS has released a new battery-powered (2 x AA) light specifically designed for entry-level users. It provides a brightness of approximately 150 lumens, offering sufficient illumination despite its compact size. The body is constructed with polycarbonate, ensuring durability. Additionally, it features CROPS' original universal bracket, called "UltiFix," which allows for the attachment of the original bell. This design combination allows the bell to be seamlessly integrated with the bracket, resulting in a discreet appearance.

## ENTRY MODEL

### VISO

Battery indicator / Low voltage indicator  
Brightness : Approx 150 lumens

● ○ ● ● ●

High mode (150lm) : Approx 9 hrs.  
Low mode (70lm) : Approx 14 hrs.  
Day time flash (150/50lm) : Approx. 17 hrs.  
Flashing (70lm) : Approx 30 hrs.

### VISO BELL COMBO

Battery indicator / Low voltage indicator  
Brightness : Approx 150 lumens

● ○ ● ● ●

High mode (150lm) : Approx 9 hrs.  
Low mode (70lm) : Approx 14 hrs.  
Day time flash (100/50lm) : Approx. 17 hrs.  
Flashing (70lm) : Approx 30 hrs.

SX7  
CW

Bright With 3LED and Long-lasting Battery

# BL600mu

BUILT-IN ACCELEROMETER FOR BRAKING

## BL600mu

Micro USB chargeable / Full charge: Approx 2.5 hrs.  
Battery indicator / Low voltage indicator

Constant : Approx 4.5 hrs.  
Flashing 1 : Approx 8.5 hrs.  
Flashing 2 : Approx 8.5 hrs.

Product code	Color	LED	Battery	Weight (g)
C2E02-04-9374	RED	Red LED x 1+ COB LED	Li-Ion 3.7V / 320 mAh	28

Parts : Micro USB cable / Universal bracket " ZP-UB08 "

## TL600mu

Micro USB chargeable / Full charge : Approx 2.5 hrs.  
Battery indicator / Low voltage indicator

Constant : Approx 4 hrs.  
Flashing 1 : Approx 5.5 hrs.  
Flashing 2 : Approx 5.5 hrs.

Product code	Color	LED	Battery	Weight (g)
C2E03-13-9367	CLEAR	Red LED x 1+ Umber LED x 6	Li-Ion 3.7V / 320m Ah	28 / 16 (Light / Controller) (Battery included)

Parts : CR2032(Controller)x1 / Micro USB cable / Saddle rail bracket " ZP-FBST01 "

Short charging time of about 1 hour

## scenes SC100W

USB(Type-C) chargeable / Full charge: Approx 70 min.  
Battery indicator  
Brightness : Approx 37 lumens

Constant 1 : Approx 4.5 hrs.  
Constant 2 : Approx 9 hrs.  
Speed Flashing : Approx 15 hrs.  
Slow Flashing : Approx 9 hrs.

Product code	Color	LED	Battery	Weight (g)
C1SC02-13-0605	CLEAR	White LED x 35	Li-Ion 3.7 V / 380 mAh	23

Parts : USB (Type-C) cable / Univeasal bracket" ZP-UB08"

Short charging time of about 1 hour

## scenes SC100R

USB(Type-C) chargeable / Full charge: Approx 70 min.  
Battery indicator

Constant 1 : Approx 4 hrs.  
Constant 2 : Approx 7.5 hrs.  
Speed Flashing : Approx 14 hrs.  
Slow Flashing : Approx 8 hrs.

Product code	Color	LED	Battery	Weight (g)
C1SC02-04-0599	RED	Red LED x 35	Li-Ion 3.7V / 380 mAh	23

Parts : Micro USB cable / Universal bracket " ZP-UB08 "

MULTI-PURPOSE SAFETY LIGHT  
**SCENES™**  
 Lights that illuminates even while charging

**8 Modes**

Lightweight, Flat Body for Flexible Installation

The clip and hard bracket design allows the light to be mounted in various locations, including places other than the seat post or handlebars. The flat body reduces light shaking caused by vibration while riding.

Hooked saddlebag

Backpack

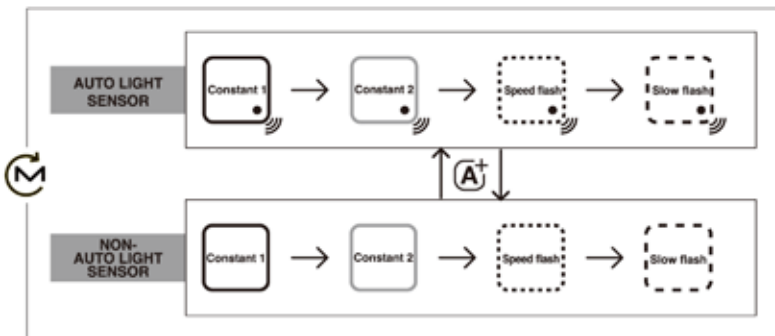

Helmet

Safety light

Emergency hand light

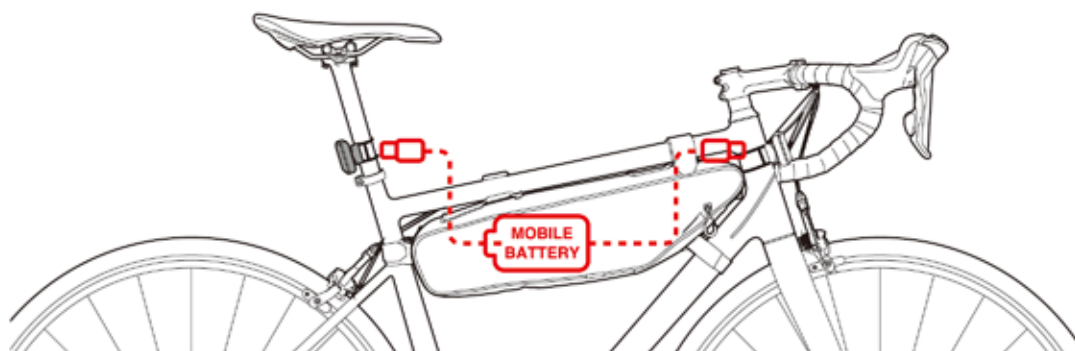

**8 Modes**

A-link as such as to double-click the switch to change the modes between Auto light sensor and Non-Auto light sensor. Each mode has 4 different functions as 100% Constant, 50% Constant, Speed flashing, and Slow flashing.

MULTI-PURPOSE SAFETY LIGHT

This product can be use Non-auto sensor functions while charging the battery.

## EZ500mu-SPORTS

※Transparent body to be seen 360°  
 Micro USB chargeable  
 Full charge : Approx. 2hrs.  
 Battery indicator

Constant : Approx 5.5 hrs.  
 Flashing : Approx 15 hrs.  
 Chase flash : Approx 30 hrs.

# FULL FACE REAR FLASHER WITH REFLECTOR

BRIGHT! SAFETY LIGHT THAT SHINES THROUGH THE ENTIRE LENS

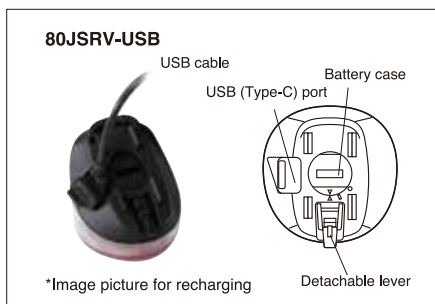

- This product does not need to replace battery regularly
- Auto flashing by vibration and dark sensor
- Flash for approx. 1 minute 30 seconds after stop

For seat stay  
\* The pipe diameter that can be attached is limited to circular pipes of  $\phi 12 - 18\text{mm}$ .

## Easy removal

For mudguard mount  
\* It is limited to mudguard, which the rear light can be attached.

Full face rear flasher with reflector + USB  
**80JSRV-USB** (Type-C rechargeable)  
Full face rear flasher with reflector  
**80JSRV-NUSB** (Non-rechargeable)

- Function : Flashing mode : Approx 50 hrs. • Full charge : Approx 1.5 hrs. • Solar charge : Approx. 4hrs.
- Waterproof
